

OELVs - Companies

Background information

1. Please provide the following details

First name

Last name

Company

Email address

Telephone number

In which country is your organisation based?

Austria
Belgium
Croatia
Cyprus
Czech Republic
Denmark
Estonia
Finland
France
Germany
Greece
Hungary
Iceland
Ireland
Italy
Latvia

Liechtenstein
Lithuania
Luxembourg
Malta
Netherlands
Norway
Poland
Portugal
Romania
Slovakia
Slovenia
Spain
Sweden
United Kingdom
Other

Please specify the country in which your organisation is established

2. Is your company a Micro, Small or Medium-sized Enterprise (SME)? For a definition of an SME, please refer to the following link: http://ec.europa.eu/growth/smes/business-friendly-environment/sme-definition/index_en.htm

- Yes
- No

Relevant chemical agents

3. Which of the following chemical agents does your company produce or use? For the purposes of this questionnaire, the term 'use' refers to any activity during which occupational exposure to the relevant chemical agent may occur.

	Production	Use
1,3-Butadiene	<input type="checkbox"/>	<input type="checkbox"/>
Acrylamide	<input type="checkbox"/>	<input type="checkbox"/>
Ethylene oxide	<input type="checkbox"/>	<input type="checkbox"/>
1,2-Epoxypropane	<input type="checkbox"/>	<input type="checkbox"/>
Bromoethylene	<input type="checkbox"/>	<input type="checkbox"/>
Vinylchloride monomer	<input type="checkbox"/>	<input type="checkbox"/>
Cr(VI) compounds	<input type="checkbox"/>	<input type="checkbox"/>

1,3-butadiene

4. How many people at your company are occupationally exposed to 1,3-butadiene and at what concentration?

Number of workers exposed:

Concentration (please specify unit):

Duration and frequency of exposure (please specify unit):

Please describe the activity/process during which exposure occurs:

5. What measures would your company have to implement to meet the OELV under consideration (2.25 mg/m³ 8 hour TWA)? This could include, for example, additional Personal Protective Equipment, substitution of a chemical agent, etc.

6. What would be the likely impact on your company of reducing exposure to a level below the OELV under consideration (2.25 mg/m³ 8 hour TWA)?

	Significant negative impact	Moderate negative impact	No impact	Moderate positive impact	Significant positive impact
One off costs (investment)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Operating costs	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Level playing field in the internal market	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Occupational health & safety	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Competitiveness vis-à-vis third countries	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<input type="text" value="Enter another opt"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<input type="text" value="Enter another opt"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

7. How many people at your company are occupationally exposed to acrylamide and at what concentration?

Number of workers exposed:

Concentration (please specify unit):

Duration and frequency of exposure (please specify unit):

Please describe the activity/process during which exposure occurs:

8. What measures would your company have to implement to meet the OELV under consideration (0.07 mg/m^3 8 hour TWA)? This could include, for example, additional Personal Protective Equipment, substitution of a chemical agent, etc.

9. What would be the likely impact on your company of reducing exposure to a level below the OELV under consideration (0.07 mg/m³ 8 hour TWA)?

	Significant negative impact	Moderate negative impact	No impact	Moderate positive impact	Significant positive impact
One off costs (investment)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Operating costs	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Level playing field in the internal market	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Occupational health & safety	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Competitiveness vis-à-vis third countries	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<input type="text" value="Enter another opt"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<input type="text" value="Enter another opt"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Ethylene oxide

10. How many people at your company are occupationally exposed to ethylene oxide and at what concentration?

Number of workers exposed:

Concentration (please specify unit):

Duration and frequency of exposure (please specify unit):

Please describe the activity/process during which exposure occurs:

11. What measures would your company have to implement to meet the OELV under consideration (1.83 mg/m^3 8 hour TWA)? This could include, for example, additional Personal Protective Equipment, substitution of a chemical agent, etc.

12. What would be the likely impact on your company of reducing exposure to a level below the OELV under consideration (1.83 mg/m³ 8 hour TWA)?

	Significant negative impact	Moderate negative impact	No impact	Moderate positive impact	Significant positive impact
One off costs (investment)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Operating costs	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Level playing field in the internal market	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Occupational health & safety	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Competitiveness vis-à-vis third countries	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<input type="text" value="Enter another option"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<input type="text" value="Enter another option"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

1,2-epoxypropane

13. How many people at your company are occupationally exposed to 1,2-epoxypropane and at what concentration?

Number of workers exposed:

Concentration (please specify unit):

Duration and frequency of exposure (please specify unit):

Please describe the activity/process during which exposure occurs:

14. What measures would your company have to implement to meet the OELV under consideration (2.41 mg/m^3 8 hour TWA)? This could include, for example, additional Personal Protective Equipment, substitution of a chemical agent, etc.

15. What would be the likely impact on your company of reducing exposure to a level below the OELV under consideration (2.41 mg/m³ 8 hour TWA)?

	Significant negative impact	Moderate negative impact	No impact	Moderate positive impact	Significant positive impact
One off costs (investment)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Operating costs	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Level playing field in the internal market	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Occupational health & safety	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Competitiveness vis-à-vis third countries	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<input type="text" value="Enter another opt"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<input type="text" value="Enter another opt"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Bromoethylene

16. How many people at your company are occupationally exposed to bromoethylene and at what concentration?

Number of workers exposed:

Concentration (please specify unit):

Duration and frequency of exposure (please specify unit):

Please describe the activity/process during which exposure occurs:

17. What measures would your company have to implement to meet the OELV under consideration (4.37 mg/m^3 8 hour TWA)? This could include, for example, additional Personal Protective Equipment, substitution of a chemical agent, etc.

18. What would be the likely impact on your company of reducing exposure to a level below the OELV under consideration (4.37 mg/m³ 8 hour TWA)?

	Significant negative impact	Moderate negative impact	No impact	Moderate positive impact	Significant positive impact
One off costs (investment)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Operating costs	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Level playing field in the internal market	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Occupational health & safety	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Competitiveness vis-à-vis third countries	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<input type="text" value="Enter another opt"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<input type="text" value="Enter another opt"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Vinylchloride monomer

19. How many people at your company are occupationally exposed to vinylchloride monomer and at what concentration?

Number of workers exposed:

Concentration (please specify unit):

Duration and frequency of exposure (please specify unit):

Please describe the activity/process during which exposure occurs:

20. What measures would your company have to implement to meet the OELV under consideration (1 ppm 8 hour TWA)? This could include, for example, additional Personal Protective Equipment, substitution of a chemical agent, etc.

21. What would be the likely impact on your company of reducing exposure to a level below the OELV under consideration (1 ppm 8 hour TWA)?

	Significant negative impact	Moderate negative impact	No impact	Moderate positive impact	Significant positive impact
One off costs (investment)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Operating costs	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Level playing field in the internal market	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Occupational health & safety	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Competitiveness vis-à-vis third countries	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<input type="text" value="Enter another option"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<input type="text" value="Enter another option"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Cr(VI) compounds

22. How many people at your company are occupationally exposed to Cr(VI) compounds and at what concentration?

Relevant compound(s):

Number of workers exposed:

Concentration (please specify unit):

Duration and frequency of exposure (please specify unit):

Please describe the activity/process during which exposure occurs:

23. What measures would your company have to implement to meet the OELV considered under each of the policy options (OELV always expressed as mg/m³ 8 hour TWA)? This could include, for example, additional Personal Protective Equipment, substitution of a chemical agent, etc.

Option A: 0.025

Option B: 0.015

Option C: 0.01

Option D: 0.005

24. What would be the likely impact on your company of reducing exposure to a level below the OELV considered under Option A (0.025 mg/m³ 8 hr TWA)?

	Significant negative impact	Moderate negative impact	No impact	Moderate positive impact	Significant positive impact
One off costs (investment)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Operating costs	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Level playing field in the internal market	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Occupational health & safety	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Competitiveness vis-à-vis third countries	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<input type="text" value="Enter another opt"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<input type="text" value="Enter another opt"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

25. What would be the likely impact on your company of reducing exposure to a level below the OELV considered under Option B (0.015 mg/m³ 8 hr TWA)?

	Significant negative impact	Moderate negative impact	No impact	Moderate positive impact	Significant positive impact
One off costs (investment)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Operating costs	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Level playing field in the internal market	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Occupational health & safety	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Competitiveness vis-à-vis third countries	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<input type="text" value="Enter another opt"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<input type="text" value="Enter another opt"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

26. What would be the likely impact on your company of reducing exposure to a level below the OELV considered under Option C (0.01 mg/m³ 8 hr TWA)?

	Significant negative impact	Moderate negative impact	No impact	Moderate positive impact	Significant positive impact
One off costs (investment)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Operating costs	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Level playing field in the internal market	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Occupational health & safety	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Competitiveness vis-à-vis third countries	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<input type="text" value="Enter another opt"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<input type="text" value="Enter another opt"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

27. What would be the likely impact on your company of reducing exposure to a level below the OELV considered under Option D (0.005 mg/m³ 8 hr TWA)?

	Significant negative impact	Moderate negative impact	No impact	Moderate positive impact	Significant positive impact
One off costs (investment)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Operating costs	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Level playing field in the internal market	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Occupational health & safety	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Competitiveness vis-à-vis third countries	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<input type="text" value="Enter another opt"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<input type="text" value="Enter another opt"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Other sources of information/further consultation

28. Are you aware of any position papers, evaluations, or other relevant sources of information that would be useful for estimating the extent of exposure to the relevant chemical agents and assessing the impacts of the OELVs under consideration? If so, please specify how the consultants could gain access to such studies (Internet links, author name and affiliation, etc.).

29. Are you aware of any other stakeholders that should be consulted for the purposes of this assessment? This could include, for example, national authorities, industry associations, and individual companies.

30. Would you be willing to take part in a follow up telephone interview? If you have not done so already, please give your contact details below.

- Yes
- No
- Contact details:
