The Commission collects and further processes personal data pursuant to [Regulation \(EU\) 2018/1725](#) of the European Parliament and of the Council of 23 October 2018 on the protection of natural persons with regard to the processing of personal data by the Union institutions, bodies, offices, and agencies and on the free movement of such data (repealing Regulation (EC) No 45/2001).

This privacy statement explains the reason for the processing of your personal data, the way we collect, handle and ensure protection of all personal data provided, how that information is used and what rights you have in relation to your personal data. It also specifies the contact details of the responsible Data Controller with whom you may exercise your rights, the Data Protection Officer and the European Data Protection Supervisor.

This privacy statement concerns the the processing operations relating to interviews carried out for a study to assess the feasibility of creating a database for the conformity assessment certificates of CE marked products, undertaken by the Commission Directorate-General for Internal Market, Industry, Entrepreneurship and SMEs (DG GROW), Unit H.2 Machinery & Equipment as presented below.

The stakeholder engagement is being carried out by the following contractors: Risk & Policy Analysts Ltd (RPA), associated RPA companies (RPA Europe Prague s.r.o. and RPA Europe S.R.L.). These entities act as Data Processors for the purpose of the completion of the stakeholder engagement. The data processors are established in the United Kingdom, Czech Republic and Italy. The Commission Implementing Decision (EU) 2021/1772 of 28 June 2021 pursuant to Regulation (EU) 2016/679 of the European Parliament and of the Council on the adequate protection of personal data by the United Kingdom established that, for the purposes of Article 45 of Regulation (EU) 2016/679, the United Kingdom ensures an adequate level of protection for personal data transferred within the scope of Regulation (EU) 2016/679 from the European Union to the United Kingdom.

2. Why and how do we process your personal data?

Purpose of the processing operation: The Commission (controller) and contractors (processors) collect and use your personal information within the framework of targeted consultation activities to obtain your views on a specific initiative, policy or intervention.

You are being contacted by the contractor since the Commission and the contractors have concluded that your views are relevant and necessary to inform the study to assess the feasibility of creating a database for the conformity assessment certificates of CE marked products, which is the concern of this targeted consultation.

The contractors either collected your contact details from the internet where they have been manifestly made public by you or the organisation you work for or they have been provided to the contractors by the European Commission or another stakeholder. The contact details that were already in the possession of the Commission were collected and processed since you subscribed to, and thus gave your consent to, be part of a mailing list to be informed of / contacted in case of future consultations by the Commission or since the Commission processed your personal data in the context of the CE mark database and other events that the Commission organised and you registered to attend.

More specifically, the processing operation concerns the following processing activities and purposes:

- to obtain the views of the respondents of a targeted consultation activity for the design, evaluation and revision of policies, initiatives, and interventions. To design, evaluate and revise initiatives it is indispensable for the Commission to receive input and views from those who are considered to be concerned by the policy, initiative, or intervention.
- to obtain the views of stakeholders to explore a subject for which very limited information is available. These exploratory targeted consultations activity (hereafter, 'targeted consultation') will provide further information to the Commission necessary to take basic conceptual decisions.

To avoid misuse, anonymous contributions to the Commission may not be accepted, regardless of whether you consent to the publication of your identity together with your contribution.

- In the context of the targeted consultation activity, you may be recorded (audio / video). This is necessary to help with detailed note taking and accurately record discussions.
- The subject matter of the consultation activity requires you to provide personal data in your response that may identify or make you identifiable. These personal data will only be published subject to your explicit consent.
- It is your responsibility if you opt for confidentiality of your personal data to avoid any reference in your submission or contribution itself that would reveal your identity.

- The consultation activity uses the Commission's online questionnaire tool EUSurvey that requires you to login via your 'EU Login' or 'social media account'. 'EU Login' requires certain personal data such as the name, surname, and e-mail address of the registrant. For further information, please refer to the privacy statements of 'EU Login' and 'EU Survey' as well as the processing operations 'Identity & Access Management Service (IAMS)' (reference number in the public DPO register: [DPR-EC-03187](#)) and 'EUSurvey' (reference number: [DPR-EC-01488](#)). Should you choose to log in through your social media account, please refer to the pertinent social media platform's privacy statement.

The personal data processed may be reused for the purpose of procedures before the EU Courts, national courts, the European Ombudsman or the European Court of Auditor.

Your personal data will not be used for automated decision-making including profiling.
